

Paisley Housing have provided a “**creation station**” and a “**Landmarks around paisley**” activity to help keep your children busy at reception whilst you attend your appointment.

Did you know that giving children the opportunity to be creative and curious enhances their focus and concentration skills.

Creativity and curiosity can help to support children to continuously develop their fine motor skills through starting and completing a task. It is an important component in promoting positive change in children’s learning and development.

For more information follow the link to read about the importance of creativity and curiosity in early years.
